

SolidView 2022 Features List

SolidView/Lite Features

- Windows 10 support without special graphics hardware.
- View, measure and modify SVD files from SolidView/Pro.
- View STL, SFX, SolidWorks, OBJ, AMF and VRML CAD files.
- Prints all supported file formats.
- Assembly viewing tools.

SolidView Features

- Windows 10 support without special graphics hardware.
- View, measure, modify and rotate SVD, STL, SFX, SolidWorks, OBJ, AMF and VRML CAD files.
- Edit and Save SVD files created from SolidView/Pro.
- Prints all supported file formats.
- Assembly viewing tools.

SolidView/Pro Features

- Windows 10 support without special graphics hardware.
- Optional interfaces for Pro/E, CATIA, Unigraphics, IGES/VDA-FS, STEP and other formats.
- Export to STL, SVD and 2D image formats.
- View, measure, and modify SVD, STL, SFX, SolidWorks, VRML, PLY, OBJ, AMF, JT CAD files as well as popular 2D image formats.
- 3D dimensioning of edges, faces, arcs, points, objects and assemblies.
- Translate, scale, rotate, mirror, verify, copy and combine 3D data.
- Collaborative engineering review tools.
- Section Measuring – exportable to 2D DXF format.
- Scene Editing – create 3D slideshows.
- Mold analysis to highlight undercuts and draft.
- Paint Function – paint objects, faces, triangles, surfaces, cones, cylinders and shells.
- Verify STL integrity for RP applications.
- Context sensitive help and PMI support for Pro/E, UG and Catia V5/V6 interfaces.
- Prints all supported file formats.
- Assembly viewing tools.
- Floating and Stand Alone Licensing.
- File Compare – compare the differences between two files.
- Wall Thickness & Gap Analysis to identify minimum wall and gap areas.
- Export Metrics – export file extents and specifications.

Note: The SolidView family of products requires that you have a video card with OpenGL support. This is the typical setup for most personal computers.

SolidView/Pro RP Features

- Windows 10 support without special graphics hardware.
- Optional interfaces for Pro/E, CATIA, Unigraphics, IGES-VDA, STEP and other formats.
- Export to STL, SVD and 2D image formats.
- View, measure and modify SVD, STL, SFX, SolidWorks, VRML, PLY, OBJ, AMF, JT CAD files as well as popular 2D image formats.
- 3D dimensioning of edges, faces, arcs, points, objects and assemblies.
- Translate, scale, rotate, mirror, verify, copy and combine 3D data.
- Collaborative engineering review tools.
- Section Measuring – exportable to 2D DXF format.
- Scene Editing – create 3D slideshows.
- Directional and compound cutting - create smaller buildable parts.
- Drain hole and Z-adjust for more accurate Stereolithography parts.
- Automatic part layout for all popular rapid prototyping systems.
- Drag and drop manual part layout.
- Shell function for creating hollow parts from solid geometry.
- Automatic and manual STL repair; delete shells, fill small gaps, re-orient triangle normals and vertices.
- Mold analysis to highlight undercuts and draft.
- Verify STL integrity for RP applications.
- Paint Function – paint objects, faces, triangles, surfaces, cones, cylinders and shells.
- Context sensitive help and PMI support for Pro/E, UG and Catia V5/V6 interfaces.
- Prints all supported file formats.
- Assembly viewing tools.
- Floating and Stand Alone Licensing.
- File Compare – compare the differences between two files.
- Wall Thickness & Gap Analysis to identify minimum wall and gap areas.
- Export Metrics – export file extents and specifications.

SolidView 2022 File Formats

Supported 3D SolidView File Formats

SolidView/Pro - \$495 single user

\$995 single network license (CAD interfaces additional, see below)

Optional 3D Import Formats - CAD Interfaces

CAD Interface	Extension(s)	Description	Single User Price	Network License Price
ACIS	.sat, .sab	AutoCAD ACIS data (2D & 3D). R1 - 2021 1.0 Requires SolidView/Pro ACIS/SAT CAD Interface.	\$295	\$595
Autodesk Inventor	.ipt, .iam	Autodesk Inventor part files versions 6 - 2022. Autodesk Inventor assembly files version 11 - 2022.	\$295	\$595
CATIA V4	.session, .model, .exp	Catia V4 (all versions). Imports faces, solids (exact and mock-up), volumes, skins, polyhedral surfaces, and SKD elements. Support for ditto, line, curve, composite curve, and conic wire-frame entities. Catia export and model data produced by Unix and mainframe versions of Catia 4.1.9 - 4.2.4.	\$795	\$1,595
Catia V5/V6	catpart, .cgr, .catproduct, .3dxml	Catia V5R8-V5-6R2021. Requires SolidView/Pro Catia V6 CAD Interface (up to version R2021x).	\$595	\$1,195
IGES/VDA-FS	.vda, igs, .iges	IGES and VDA-FS surface and solid files, IGES and VDA-FS 3D curve data, IGS and VDA-FS assembly files. IGES up to V5.3 VDA: 1.0 - 2.0.	\$495	\$995
Parasolid	.x_b, .x_t	Parasolid files up to version 34.0. Requires SolidView/Pro Parasolid CAD Interface.	\$295	\$595
Pro/E	.prt, .asm	Pro/E V16 up to Creo 8.0 surface and solids assembly and part data. Requires SolidView/Pro Pro/E CAD Interface.	\$595	\$1195
SolidEdge	.par, .asm, .psm, .dft	SolidEdge part, assembly, sheet metal, and draft (drawing) data up to SE 2022.	\$295	\$595
SolidWorks Geometry	.sldprt, .slddrw	SolidWorks drawing and part data up to V2022. Requires SolidView/Pro SolidWorks Geometry Interface.	\$295	\$595
STEP	.stp, .step	STEP AP203, AP214 and AP242 part and assembly data - Geometry only. Requires SolidView/Pro STEP CAD Interface.	\$495	\$995
Unigraphics	.prt	Unigraphics part and assembly data, up to version NX1980. Requires SolidView/Pro UG CAD Interface.	\$495	\$995
